

6010 Training Seminar

MEDICAL GAS INSTALLER TRAINING SEMINAR INFORMATION & REGISTRATION APPLICATION

About the Class

The Medical Gas Installers class is a 32-hour course in accordance with NFPA 99 2005 and ASSE 6010 standards. The course is taught over four days and includes a practical and written exam on the fourth day. The class is taught by a certified ASSE 6050 instructor. NITC provides testing, grading and brazing analysis. A written confirmation will be provided by Evergreen Medical after the applicant receives a passing score on both the practical and written exam. Certification is valid nation-wide for 3 years from the date issued. Brazing continuity must be documented semi-annually.

About the Instructor

Steve Bradshaw is the instructor of the Medical Gas Installer Training Seminar. He has a mechanical engineering degree from NC State University and 17 years experience in the medical gas field.

Materials Required

1½" pipe (does not have to be clean for Oxygen) to make 18" coupons (may be pre-cut for testing & practice), **Couplings** (not slip), **torch, acetylene or oxy/acetylene, BCuP Brazing Rods** (recommended 15% silver) **NF Nitrogen and purge regulator provided** when class is located at an Evergreen facility.

Fees

Call for pricing. Fee is dependent on class size. Submit Check with application or include a VISA/MasterCard number on the application. Checks should be addressed to Evergreen Medical Services, Inc.
